### 4. To Add Card

A screenshot of the "ADD CARD" form in the application. The status bar shows 1:37, signal strength, Wi-Fi, and 30% battery. The app header has a back arrow and the title "ADD CARD". The form contains a dark blue card preview with "0000 0000 0000 0000" for the card number, "Cardholder Name XXXXX XXXXXXXX", and "Expiry 00/00". Below the preview are input fields for "First Name" (containing "John"), "Last Name" (containing "Doe"), "Card Number" (with a masked input "xxxx-xxxx-xxxx-xxxx"), and "Expiration Date" (with a "mm/yy" input). There is also a "Default Currency of Card" dropdown menu set to "Select". At the bottom, a dark blue "Add" button is highlighted with a red rectangular box.

- Enter First Name, Last Name, Card Number.
- Select Expiration Date
- Select Default Currency of Card – (Jamaica Dollar (JMD) or United States Dollar (USD))
- Click Add

## 5. Manage Your Cards

Once a card is added it will appear in the user's Digital Wallet. The user can add more than one card.

### ➤ Open "Digital Wallet".

The card or cards that were added will appear. The user can perform the following functions:

1. Add – Allows the user to add another card.
2. View – Allows the user to view a specific card detail, set a specify card as default payment and verify card.
3. Remove – Allows the user to remove cards from their account.

## 6. Card Verification

Once a card is added the user will not be able to do any transaction until the card verification process is done. The following function must be done to verify each card that is added to the account. Proceed to view the card that you wish to verify.

- Click on the Verify button.
- Then enter the random amount that was charged to the card.
- Select to Verify
